That sounds fine to me.

So, if its the same area, the concern the Division has, is we cannot have two permits for the same area. It really doesn't matter to the Division whether the permit is in Dana Beck's or your name. If you want Dana to continue as the permit holder, then there is no reason to continue to process the NOI you submitted for Eagle Summit Phase 6. We will just make sure the bond is in your name and when the site is completed, the bond is returned to you.

The location is the same for the Beck permitted area. Dana has the permit and Traverse Mountain posted the bond. I don't know about any map.

jack:

The clarification I need to complete the processing of this application is as follows

It appears that the location is the same that Dana Beck has for the Fox Canyon Permit. This leaves two questions,

One, is this indeed for the same area? or is the map incorrect.

Two, if it is for the same area, are you planning to have the permit in your name (since you are putting up the bond)

and this was submitted to essentially replace the Fox Canyon permit?

Once you can clarify this for me I can complete our review.

Thanks,

Lynn Kunzler
